are every year increasing their long established repu-tation. They have outlived many rival preparations, and are continually gaining upon public confidence. The Botanical Drops have been successfully admin-

istered for many years, as a thorough remedy for that well known and prevalent class of inveterate diseases which originate from a vitiated habit of body, or an hereditary predisposition in the patient, and generally appear under the various and distressing shapes of

Scrofula, Salt Rheum, Leprosy, St. Anthony's Fire, Fever Sores, White Swellings, Scurvy, Foul and Ob-stinate Ulcers, Sore Legs and Eyes, Scald Head, and

In the last mentioned condition of the system, the Botanical Drops will be found to eradicate the lurking poison, where mercury has totally failed, and thus prevent the patient from entailing the seeds of an he-

reditary disease on his offspring.

Dr. Relfe's Botanical Drops are successfully used in cases of violent eruptions after the measles-red blotches-pimples on the face-festering eruptions on the skin-and other diseases of the external surface; and are one of the best Spring and Autumnal physics known, to free the system from humors.

WHITE THETH! AND HEALTHY GUMS! THOSE who would retain or restore these desirable Personal advantages, are assured that no composition can be obtained superior to the

BRITISH ANTISEPTIC DENTRIFICE. This is an elegant and pleasant preparation in every respect, and has, for many years past, given universal satisfaction wherever it has been used.

The Antiseptic Dentrifice is exempt from acid and other deleterious ingredients, which too frequently enter the composition of tooth powders in common use, and it whitens the enamel of the teeth without doing it the least injury. The regular use of this admired powder, by purifying the mouth and preventing the accumulation of tartar, operates as the best pre-ventive of the Tooth Ache. The Dentrifice removes discolorations, and restores the beautiful native whiteness of the enamel. As its application braces and strengthens the Gums, it secures to them their healthy and flerid hue, and, by removing all offensive foreign accumulations from the teeth, preserves the natural sweetness of the breath. PATENT RIGHT SECURED. BEWARE OF IMPOSITION.

SHEPHERD'S PATENT SPECIFIC OINTMENT, (formerly Judkins',)

Prepared by C. HERSTONS, near Fredericktown, Maryland. RICHMOND. Va. July 15, 1830. THE public will be pleased to understand that I was the original discoverer of Judkins' Ointment, and

sole proprietor of the patent from September, 1817, until the expiration of the same; but, having connected myself with Dr. Judkins in the commencement, I permitted the Ointment to bear his name. The term of the patent having expired on the 26th June, I have made an improvement in the same, and taken out a parameter thereon. tent thereon.

call the Ointment after his own name. Henceforth it will be known by the name of

SHEPHERD'S PATENT SPECIFIC OINT.

MENT, (formerly Judkins'.) When I first made and prepared this Ointment, and had, in several instances, experienced its good effects, I sent it to several physicians, with instructions in what cases to apply it, who were of opinion that the Ointment would be a valuable public benefit. I concluded that the Ointment would occasionally fall into many hands, some of whom would probably undertake to make it, and knowing the difficulty of the process—nevertheless, it might be progated in this adulterated situation, as it might in some degree resemble the original-and in this way its good effects would be obliterated. Under these considerations, I secured the origi nal and certain remedy for those obstinate diseases, some of which have so long baffled the skill of medical science:

1st White swellings of every description;

2d Sore legs and ulcers of long standing, 3d Schirrus or glandular tumors, particularly those hardened tumors in women's breasts, which oftentimes

terminate in ulcerated cancers; 4th Felons; or what some people know by the name of catarrhs, of every description.

5th Rheumatic pains of the joints; 6th Sprains and bruises of every description, or in

whatever part situate;
7th Tetters of alikinds. In this complaint the patient, in applying the ointment, must keep the part out of water;

8th Chilblains or parts affected by frost. It is also one of the best remedies for burns and scalds. It eases the pain and draws the fire out in a short time.

For inflamed women's breasts and glandular swellings, it is superior to any medicine yet known to the medical faculty. It is much safer than mercurial applications, (as it does not contain the smallest atom of any preparation of the mineral,) because it does not lay the patient liable to injury from exposure to cold.

This Ointment has cured sores of many years standing. Where it is impossible or imprudent to heal the THE extensive sale and established reputation of external sore, in consequence of the bones becoming Dumfries' Itch Ointment, encourages the propri- carious or rotten, it will stop the progress of the caries,

CERTIFICATES. From the Hon. John Cocke, Member of the House of Representatives in Congress.

WASHINGTON, March 22, 1826. Sir - My son having been afflicted for five years with white swelling, and having applied every remedy recommended by the most eminent physicians within my reach without success, I at length procured one jug of Dr Judkins' Patent Specific Ointment, and made the application according to the directions accompanying the Ointment, and state, for the benefit of the afflicted, that before one jug was used, a perfect care was effected. My son has enjoyed good health ever since. I have no doubt that to the Ointment alone he is indebted; for nothing else was used for more than nine months before the application of the Ointment. Respectfully, Dr. Wm. Gunton, Washington City. JOHN COCKE.

FREDERICK, Md. May 6, 1831. Mr. C Herstons-I deem it proper to state, for the benefit of the public, that, several years since, two of my children were affected with scald head of an inveterate character. From the Honorable John Taliaferro, Member of Congress, dated washington, January 22, 1829.

SIR-It has been my wish, for a considerable time, to communicate to you the good effect with which I have used the Ointment invented by a Mr. Judkins, and which I now understand is made and sold by agents appointed by yourself, I have applied this Ointment during the last three years to every species of tumor and wound, without failure to produce a cure add, that the cure of a tumor called white swelling, given over by the most distinguished physicians as indiate notice, effected by the use of Judkins' Ointment, no objection to this case being made public for the and the patient is in fine health. His limb affected by the tumor being restored to a perfect state of sound ness. Also that the leg of an aged man which had been wounded, and exhibited one dreadfully ulcerated surface from the knee to the foot, and which, for more than two years, had been considered incurable, was effectually cured by the application of Judkins' Ointment. I mention these two cases, which feilunder my immediate notice and management, as a decided evidence of the efficacy of this remedy in cases of tumor and ofulcers: I have experienced, as decidedly, the good effect of this remedy in the cure of Felous, and of every species of fresh wound. It seems to me that any one who will observe on the operation of this Ointment, must be satisfied as to its beneficial effect. I can with the utmost confidence recommend the use of this valuable remedy. Iam, sir, very respectfully,

BALTIMORE, August, 1828.

Doctor S. H. P. LEE, New London, Conn. DEAR SIR-It is now upwards of twenty years that I have used your New London Bilious Pilis in my fami ly, and always found them an efficient purgative in alnost every description of disease, and believe they saved many a long doctor's bill by their early and timely use. I never found their accustomed certainty to vary in their operation and effects until a few months past; and having, since then, been sadly disappointed in every instance of using them, I began to conclude that you had made your fortune, and abandoned their manufacture to mercenary and unfaithful hands. Under this impression, I accidentally saw an advertisement of yours in a New York newspaper, designating spurious imitations from your own manufacture, by having your WRITTEN SIGNATURE to each bill of directions. and that in no instance were the imitations signed with pen and ink, although a perfect copy in every other respect. Finding those I had without this test, I began to suspect that " all was not fair in medicine, as well as in politics, and called at several of our apothecaries for your pills, with your written signature. I found many without this test, but none with it, until I came to the Messrs. Keerls', who assured me they had cess as to cure the most distressing Rheumatism in tent thereon.

HYGEIANISM.

THE following testimonials of the superior efficacy of the HYGEIAN MEDICINES in the cure of our diseases, speak in a language which must carry conviction to the minds of the most skeptical: BROWN UNIVERSITY, Dec. 25, 1833.

To Mr. Samuel Young, Agent for the Hygeian Vegetable Universal Medicines, for the State of Rhode Island.

SIR-Gratitude to the Great Preserver of Men compels me, in compliance with your request, to give a brief statement of a cure, which, I think, I received from the Hygeian Medicines. I give publicity to the same the more cheerfully, because thereby, perhaps, I may be useful to some of my fellow-men, who may be afflicted with a similar disease.

My complaint was called Pulmonary Consumption, and that my real condition may be explicitly understood, I state, in connexion with the relation of the cure, some of the symptoms of the disease. In September, 1832, I caught a severe cold, which settled on King and Columbus streets, in the house formy lungs; I was confined to my room about one week, merly occupied by James & Jacob Douglas. with a fever, attended with considerable cough; my cough soon abated, and apparently, I was regaining my health; when, after about three weeks, course of the night, having returned the evening be-fore in usual health, I found myself bleeding at the lungs. I had not, to my knowledge, received any hurt or strain, to which the cause of this might be attributed. I spat blood, occasionally, for four days; it left me with some fever, pain in the breast, very little ap-Petite, and withal, very weak.

A few weeks determined that I was in a decline I

received the attention of the most skilful Physicians, who often seemed to check the progress of the discase, and inspire the hope of a speedy recovery. But relapse upon relapse, and each bringing me lower than the preceding, seemed to baffle all buman skill, and warn me of an approaching dissolution. Thus, months after the first attack, a "tubercle" [small ulcer] broke in the lnngs, after which I spat blood, one I continued to decline two months longer, when I obtained the Hygeian Medicines. I had now been unable to sit up a whole day, for four months and a half. My feet were cold and lifeless, sleep unsound, cold night sweats constant, tongue furred, pulse in the afternoon from seventy-five to one hundred per minute, food produced great distress, appetite very poor, pain in the breast directly opposite the heart, attended with some cough, &c. &c. Such was my condition, when I first became acquainted with the Hygeian Medicines I commenced taking the medicines, four pills at a dose, and increased the dose daily, one up to the number of twelve. In about ten days, my appetite became good, and food produced no distress, sleep soon became sound and refreshing, and in about forty days the symptoms of the disease had nearly all disappeared.

I took the medicine sixty days regularly every night, averaging about ten pills at a dose; the greatest number taken at any one time was fifteen. After this, took about four doses a week, until I had taken about thirteen hundred pills, when I found myself restored to health. After I commenced the Hygeisn, I took no other medicine. One year from the first attack, ! was able to resume my studies in college, where I have since remained without any recurrence of the disease. Hitherto I have been convalescent; and if my strength is not yet fully returned, I am certain I have less pains, and am more free from temporary sickness, than at any time since my earliest recollection. Yours, with respect,

HORACE T. LOVE.

DR H. SHEPHEARD MOAT. Dear Sir-I wish to state that my sister, after severe suffering, and employing a medical man three years, was relieved by the use of the Universal Medicines. Her complaint was a violent pain and soreness in her side; indeed, to use her own expression, her in every instance. I consider it the most decided and one side had turned in, actually deformed. The pain efficient remedy in all cases of tumor, be the cause whatit may; and I have found nothing so good for vere, that she could not sit up for upwards of three wounds of any description It may be proper to years. It was occasioned by over-lacing hers elf, and perhaps, over exertion with it. After using a few, doses of No. 1 and 2, alternately, about eight pills for curable, and which they decided would, without amputation, prove fatalto the patient, was, under my immetheir use, she is now restored to health; and I have H. DYER.

Lowell, Massachusetts, Feb. 8, 1834 In justice to Dr. M., her medical adviser, when he heard her improvement in health, he recommended perseverence in the use of he medicines.

This valuable Medicine, being composed only of vegetable matter, or medicinal herbs, and warranted, on oath, as containing not one particle of mercurial, mineral, or chemical substances, (all of which are uncongenial to the nature of man, and therefore destructive to the human frame,) is found to be perfectly harmless to the most tender age or weakest frame, under every stage of human suffering; the most pleasant and benign in its operation, and at the same time the most searching out the root of every complaint, however deep, and of performing a cure, that was ever offered to the world. This wonderful effect, too, is produced by the least trouble to the patients, by merely swallowing a certain number of small pills, and being called a few extra times to the purposes of eva-cuation, with the least possible sensation of pain, or exhaustion of bodily strength, and without the fear of catching cold, or attention to dress or diet, in any way

different from their accustomed habits.

These pills cure all cases, and cannot be taken to excess Experience, which is the touchstone of all its truth in this country.

These medicines cure by purging; and yet the weak, the feeble, the infirm, the nervous, the delicate, are in a few days strengthened by their operation, because they clear the body of its bad humours, and invariably procure sound sleep. They are the safest and most efficacious menicine to take to sea; preventing scurvy,
